Belmont Parents,

We are excited to introduce the Belmont University Parents Association. The Parents Association will serve you and your family through special programs, enhanced communication, and increased opportunities to be a part of the life of Belmont. In the upcoming years, we will add local chapters of the Association for parents to join with new and current families in your community connecting the Belmont family nation-wide.

The Belmont Parent Association will officially launched June 1. The cost of membership is \$150 which includes continued enrichment of the Belmont Parents Online Community, 2 tickets for all events during Parent & Family Weekend, Belmont Parent & Family calendar, and invitations to Belmont Parent Association events. Further, half of your fee serves as a tax-deductible donation to the Belmont University Annual Fund supporting need based scholarships.

The creation of the Belmont University Parents Association will allow some services to be consolidated into the Office of Parent Programs. As of this month, the Parent & Family Newsletter that is currently sent through a standard e-mail list will be moved to the Belmont Parent Online Community. Registration for all parent events, online surveys, and updated news alerts will also be moved to the online community. This provides the Office of Parent Programs with updated information giving us the ability to correspond more effectively. If you have not registered with the Belmont Parent Online Community, you can do it today at <http://parents.belmont.edu> free of charge.

We are excited about the growth of Belmont University and your involvement in our community. We look forward to your continued involvement in Belmont!

Go Bruins,

Matt Burchett
Director of New Student & Parent Programs

Anna Verner
Associate Director Development
